Shawn's Custom Homes builds one-of-a-kind quality homes. We are known for building unique, functional homes that combine elegant design with utility. No two Shawn's Custom homes are exactly alike. We collaborate with you to create a home that is a pure expression of your tastes and style. A true custom home with Shawn's Custom Homes is unlike any other because no one builds a custom home like we do.

Our custom home designs are tested and proven – which means we listen to our homeowners, and they inspire us to design and build homes tailored to the way they live their lives. That means smarter living space and rooms you'll use all the time – not just once a year. Our high-quality construction blends functional design with cutting-edge innovation. Regardless of where you choose to live, as long as you live in a Shawn's Custom Home, we like to think it's the perfect place to call home.

Every new Shawn's Custom Home is built to our high standards, and yours. Our step-by-step process includes strict quality control measures that ensure accuracy and attention to detail. It also keeps you informed along the way, promising delivery of a home you'll be proud to call your own.

The choice to build a custom home is a big decision. When you choose Shawn's Custom Homes, you're partnering with a family owned company of experienced home builders. We've spent years perfecting a unique process that's exciting and clear from start to finish.
